Mr. Michael T. Sillerman  
Rosenman & Colin  
575 Madison Avenue  
New York, NY 10022-2585

Dear Mr. Sillerman:

Thank you for your letter of October 28, 1992 regarding the establishment of a reporting system on the sustainable development program for the Riverside South Project. Incorporating energy efficiency and a sustainable design program into the project presents an important opportunity to reduce long term costs to both New York City and the development.

Please contact my office to arrange a meeting to discuss this matter in greater detail. We look forward to working with you on this important initiative.

Sincerely,

Bill Squadron
